DETAILED ACTION

1. This office action is in response to the RCE filed on 9/2/2002.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. Authorization for this examiner's amendment was given in a telephone interview with attorney, Mr. William Clark, on 7/6/2006.

4. The application has been amended as follows:

Claim 1 (Currently amended) A system for generating an operational assessment of a cache memory in a digital data processing system for respective cache memory sizes comprising:

- A. an operational statistics gathering element configured to gather operational statistics over a time interval, including a file information retrieval activity value and an extent of activity value for each file accessed during the time interval;
- B. a cache miss prediction element configured to generate a cache miss prediction value in response to the operational statistics gathered by the operational statistics gathering element and a cache memory size value; and

Art Unit: 2627

- C. a cache memory size adjustment element configured to adjust the cache memory size in response to the cache ~~memory size~~ miss prediction value generated by the cache miss prediction element for a selected one of said cache ~~miss prediction~~ memory size values.

Claim 17 (Currently amended) A computer program product embodied upon a computer readable medium for use in connection with a computer to generate an operational assessment of a cache memory in a digital data processing system for respective cache memory sizes values, the computer program product comprising ~~a computer-readable medium having encoded thereon~~ a cache miss prediction module configured to enable said computer to generate a cache miss prediction value in response to operational statistics gathered over a time interval, including a file information retrieval activity value and an extent of activity value for each file accessed during the time interval, and a cache memory size value; and a cache memory size adjustment module configured to adjust the cache memory size in response to the cache miss prediction value generated by the cache miss prediction module for a selected one of said cache memory size values.

REASON FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

Claims 1-24 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a system or method for adjusting cache memory size based on the cache miss prediction value generated by the cache miss prediction element.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication from the examiner should be directed to Fred Tzeng whose telephone number is 571-272-7565. The examiner can normally be reached on weekdays from 9:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa Thi Nguyen can be reached on 571-272-7579. The fax phone numbers for the organization where this application or proceeding is assigned are 571-273-8300 for regular communications and 571-273-7565 for After Final communications.

8. Informal regarding the status of an application may be obtained from the Patent Application Information Retrieval (**PAIR**) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you

have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
